

Who we are

Lumiere Studio is a multidisciplinary art and design firm founded by Lumiere Group, established in 1994, a major supplier of high-end lighting fittings in Lebanon and the Middle East. In our design practice, light is used to enhance the experience of a visual environment. Our work is wide-ranging and encompasses architecture, strategic branding and innovative design.

Our portfolio reflects a richly diverse range of output, from residential quarters to retail and hospitality. We handle not only indoor design, but outdoor landscapes and architectural projects as well.

We work in close collaboration with our architects, clients and designers and use our lighting designs to enrich the core principles of their design and vision.

Principles

We believe that lighting is the fourth dimension of architecture, meant to be integrated with and enhance other design disciplines. We work with knowledge of how lighting can affect social interactions, whether at work, home, school and play.

Our expertise in design technique and sensitivity toward functionality and the social effects of lighting equips us with the resources to find better solutions that are both environmentally sustainable and enhance the business.

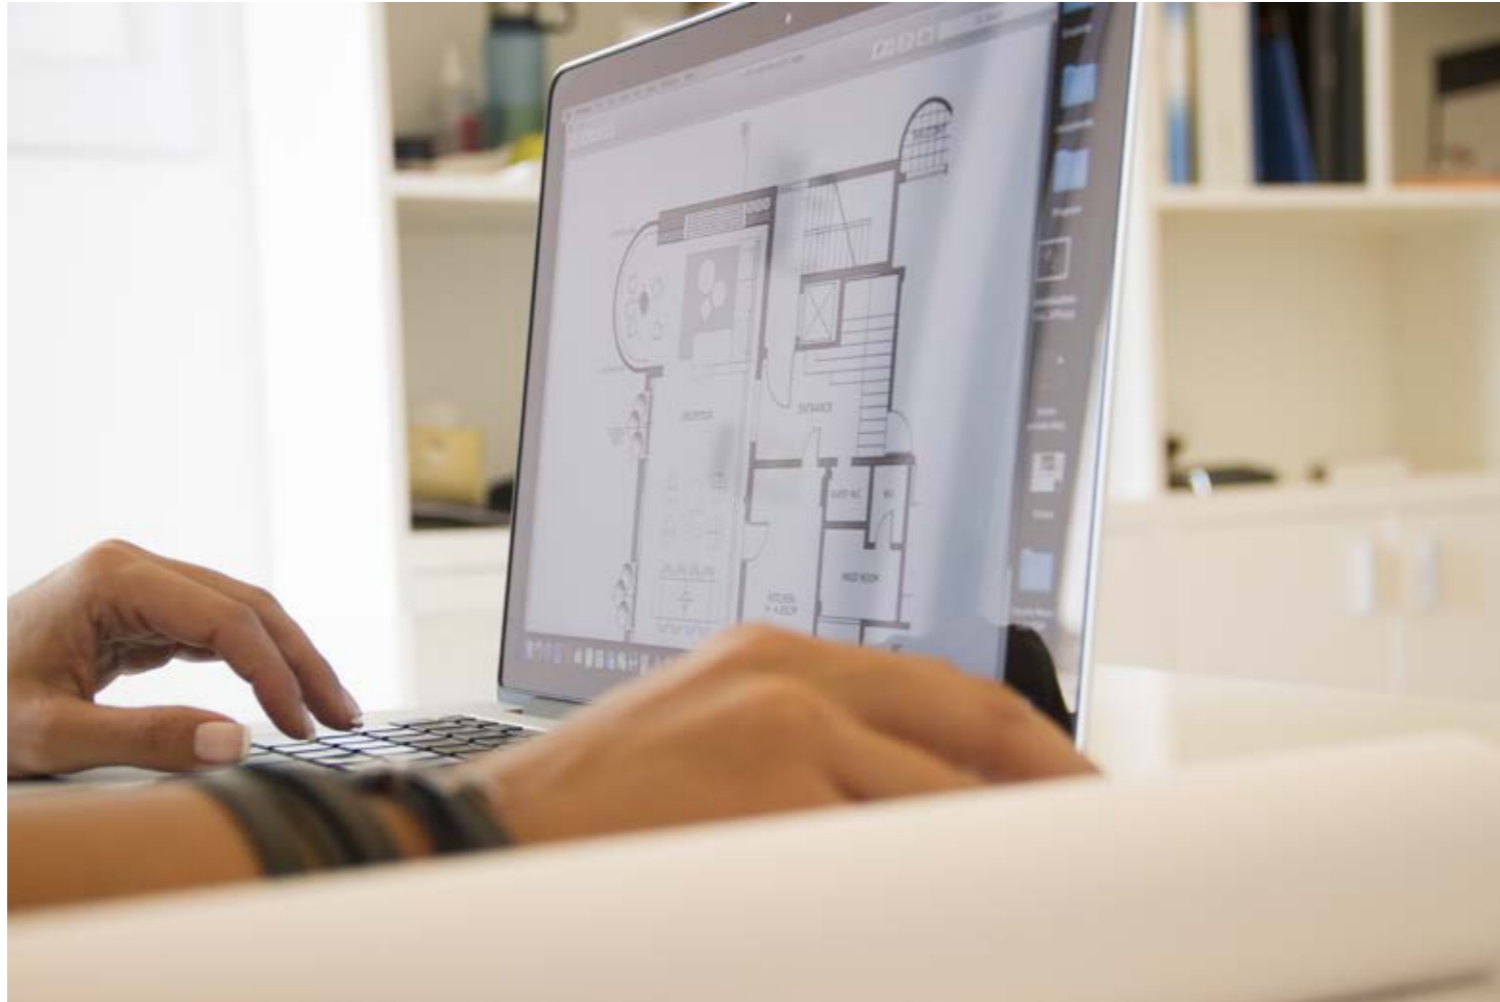

Services

We offer a comprehensive lighting design service, from initial consultations, strategy and concept development, lighting calculations, energy impact analysis for Leed certification, all the way to construction, on-site support and final lighting set up.

Lighting strategy and concept

- a.** Assistance with preparation of lighting brief and budget.
- b.** Produce feasibility reports and conceptual lighting design studies.
- c.** Produce presentations to communicate design concept.
- d.** Assistance in ensuring lighting plan matches budget.

Strategy to development

- a.** Preparation of preliminary lighting layouts, lighting equipment schedule, preliminary control intent, logical control channel, schedule and lighting calculations.
- b.** Ensuring lighting plan is in accord with budget.

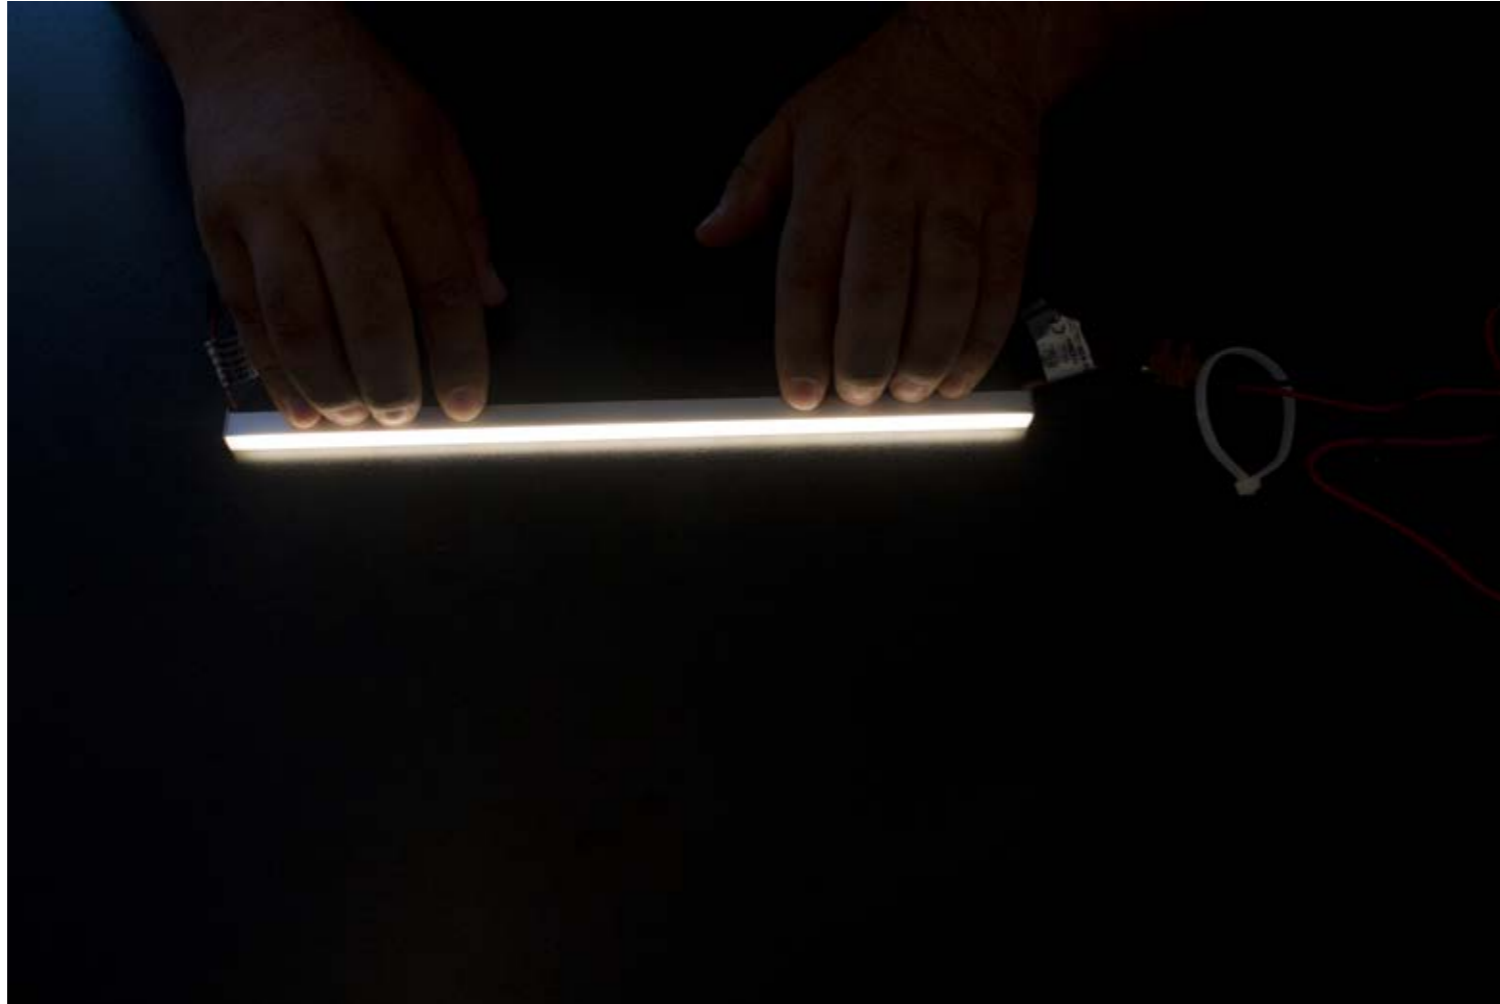

Production and technical layout

- a.** Preparation of final lighting layout including, lighting equipment specification and performance specification for lighting control system.
- b.** Assist with coordination of lighting installation.
- c.** Assistance with ensuring compliance with installation of the building regulations and local regulations.
- d.** Preparation of final logical channel schedule.
- e.** Provide comments on final coordinated construction drawings.

Tenders and construction

- a.** Produce final review of lighting installation on practical completion.
- b.** Provide comments for contractor/manufacturer drawings and details for compliance with design requirements.
- c.** Provide direction for focusing and programming of installed lighting.
- d.** Provide assistance to the design team to prepare schedules of defects related to items specified by lighting design.

Additional services

- a.** Provide detailed summary reports showing luminance levels other than those included by architect for general evaluation.
- b.** Provide design of development of custom-designed luminaires and negotiating competitive prices for products.
- c.** Provide retail and field inspections.
- d.** Provide reports about whole life and running costs.
- e.** Provide final lamp schedule for client's building maintenance staff.
- f.** Provide as-built/installed drawings.
- g.** Provide computer-generated images, animated images and special renderings to communicate design.
- h.** Provide review of final building contract or tender documents.
- i.** Provide design, supervision, construction, testing and evaluation of models and mock-ups.

TEAM

“Great things in business are never done by one person. They’re done by a team of people”

— Steve Jobs

Team

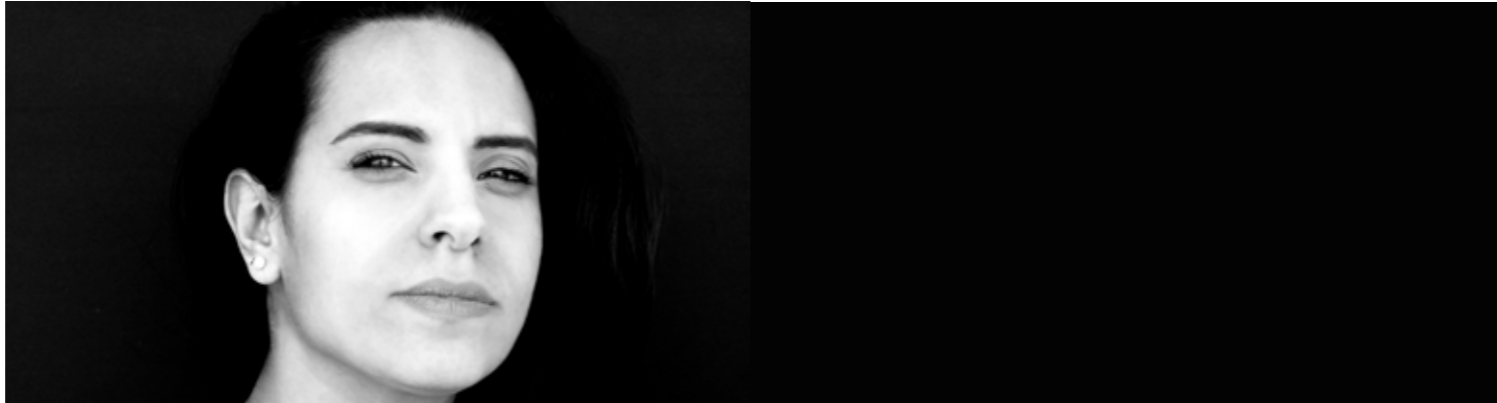

The studio employs international designers from various disciplines including architecture, interior design, lighting, engineering and graphic design. It is based in Beirut and handles a wide array of projects in the Middle East, and beyond.

Working in the studio are top-notch lighting designers specialized in concept development, lighting calculations, energy impact, construction and on-site support. They work on creating lighting designs to complement architectural projects, including residential and commercial spaces.

With nearly 20 years in the lighting business, Lumiere Studio stands out for its ability to design and realize important projects on a tight deadline. We boast a talented full-service team with a penchant for collaboration with local and world-class architects alike. We are flexible and responsive in our approach and see our clients as partners in every project.

The Lumiere Studio team comes from diverse backgrounds. Some bring expertise in lighting and engineering, others are well versed in architecture and eco-building. The studio team members also come with technical expertise in generating fixture specifications and working with electrical engineers to develop synchronous lighting control systems.

Despite our diverse backgrounds, the Lumiere Studio team works as one unit delivering the best possible outcome on all design projects.

Graziella Dimitri

Graziella is the manager of Lumiere Studio and holds a master's degree in Lighting, Wood, Furniture and Color Management. Previously she completed a diploma in interior architecture and gained Eco-Building And Leed Green Associate training. She has 18 years of experience in the lighting field.

She works and manages every stage of a lighting project, from inception to completion and has a gift of collaborating with multiple stakeholders on a number of projects with ease. She has completed several high-end projects, including Edafah Suites Hotel in Saudi Arabia, the National Cancer Institute in Iran, Sport Club and Darwish Tower in Qatar, the Rotana Al-Abdali in Jordan, the Radisson Foujaira Hotel in the UAE, the Rotana Salalah in Oman, Oakrigde Mountain Resort and ABC Mall in Lebanon, among many others.

Sara Mteini

Sara is the team leader of Lumiere Studio and handles project design, development and presentations and holds a master's degree in Architecture from Lebanese University's Institute of Fine Arts and has been working in the design world for 11 years. She has worked on the Sarba Maronite Archbishopric, DQ Hotel in Riyadh, Boutique le chocolat Dubai and Naccache 66. She speaks Arabic, English and French fluently and is always keen to learn new skills. At the moment Sara is also taking courses at the Lebanese Canadian University in project management.
